-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 4-8 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by US 4,166,553 to Fraterrigo.

Fraterrigo shows a bottle for cosmetics of medication as seen in Figs. 1 and 3, having a neck 11, a self sealing valve 17, a front and rear panels 10 and 5 respectively, two narrow side panels where the maximum width of the front panel is at least twice the width of the side panel, an upper and a lower section with the upper section having rounded shoulders and the lower section having tapered walls.

In reference to claim 10, the container of Fraterrigo performs the method steps claimed, see column 3, lines 1-7.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 3 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over US 4,166,553 to Fraterrigo in view of US 5,542,585 to Peters et al.

Fraterrigo disclosed all the claimed features as discussed above except for the front and rear panels being bowed outwardly and having the lower region taller than the upper region. Peters shows a container as seen in Fig. 1, having a body 10 with bowed outwardly front and back panels and a lower section taller than an upper section. It would have been obvious to a person with ordinary skill in the art at the time the invention was made to modify the shape of the container of Fraterrigo to include bowed outwardly front and back panels and a lower section taller than an upper section as taught by Peters to make the container fit comfortable on a person's hand and make the container ergonomic and easy to handle.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hills shows a bottle. Browns shows a flexible slit valve. Viegelmann shows a collapsible container. Lohrman shows a dispensing package.
